November 19, 2003

Sir:

Examiner Le and Supervisory Primary Examiner James Trammell are thanked for the courtesy provided to the undersigned during interviews which occurred at 9:30 a.m. and during the afternoon on November 18, 2003.

The Final Rejection was discussed with Examiner Le with respect to only claim 1. The undersigned indicated to the Examiner that, in Applicants' opinion, the Final Rejection had not pointed out the basis of how Ginter et al was being read upon claim 1. The Examiner disagreed that the Final Rejection did not set forth the details of how the Examiner was interpreting Ginter et al to render obvious the claimed subject matter, including claim 1 in combination with Martineau.

Specifically, Examiner Le principally relied upon Fig. 2 of Ginter et al in combination with the content of columns 40-42 with the Examiner placing specific emphasis on the portion of column 42 from lines 4-16. The undersigned asserted that this subject matter did not teach the details of the tailoring information, as recited in claim 1, and the function thereof in the claimed method of distributing electronic content between first and second terminal devices. The undersigned asked Examiner Le to point out the subject matter of steps a)-e) in claim 1 corresponded to Ginter et al and Martineau and the Examiner contended he had done so in the Final Rejection.

The undersigned informed the Examiner that he would discuss the matter with his Supervisory Primary Examiner, James P. Trammell. The undersigned placed a phone call with Mr. Trammell to discuss the Final Rejection and discussed the Final Rejection briefly in the afternoon. Mr. Trammell stated he would get back to the undersigned with his opinion of whether the Final Rejection stated sufficient information to make the Examiner's interpretation of Ginter et al clear on the record. At this time, the undersigned has not heard from Mr. Trammell.

A Notice of Appeal is being filed today to maintain pendency of the application.
